This memo is to inform you that the compounds listed below were not able to be validated by USDA's Pesticide Data Program (PDP) and were not analyzed in snap peas during the timeframe of January 2017 through December 2018. These compounds have established U.S. tolerances for snap peas but did not recover through the QuEChERS Multiresidue Method (MRM) employed by the Ohio Department of Agriculture.

Chlorothalonil	Imazethapyr
DDD (o,p' and/or p,p' or total combined	Inorganic bromide
Diquat	Magnesium phosphide
Endothall	Paraquat
Etridiazole	Phosphine
Fluorine compounds	Pyrethrins
Glyphosate	Sulfuryl fluoride

Please contact the Monitoring Programs Division at (202) 572-8167 with any questions or comments.
